SQUEEKY CLEAN

Gentle cleansing gel researched and developed by a veterinarian for removal of accumulated body oils, dead skin and dirt. (Smegma) from the sheath and penis of male horse and from the teats and genital areas of the mare. Left untreated these area could experience inflammation and infections. Some studies suggest the outer layer of smegma can be cancer causing. **SQUEEKY CLEAN** contains no disinfectants which can alter the normal bacteria flora and does not encourage the growth of pathogenic bacteria. Maybe used on geldings and mares as directed.

UEP1000 16 oz \$9.95
