## PROBIOTIC V™

### Superior to competitive probiotic counterparts!

Probiotic V™ is the only fully live, stabilized microbial system available in the marketplace (stable at temperatures up to 180°F). Micro blended in a unique formula with live cell yeast culture for enzyme activity. Live microbials aid in appetites, digestion of fiber nutrients (alfalfa, grains) gut integrity — factors that often lessen the occurrence of colic and/or pathogenic coliform activity. Contains 10 times the level of live microbial system as many competitive products.

Probiotic V™ contains a concentrated microbial system, consisting of live, stabilized lactic acid producing bacteria. Probiotic V™ contains four (4) strains of *live stabilized* lactic acid producing bacteria (probiotics), plus live cell yeast culture, used as a microbial supplement.
