

# EQUINE CALMING AGENTS

**NO FREIGHT CHARGES!!**

**EQUINIME** is the only source of natural relaxed energy on the market. It is used by hundreds of trainers in the feeding program of tense, hyperactive horses.

**SUP1002 2 lbs 23.50**  
**SUP1005 5 lbs 54.50**

## FOOD SUPPLEMENT FOR HORSES IN TRAINING & BREEDING

EQUINIME can be fed at different times depending on your daily routine.  
\*If the horse usually works in the morning, 2 scoops over the morning feed.  
\*If the horse usually works in the afternoon, 1 scoop in the morning feed, 1 scoop in the afternoon feed (if the horse is fed only morning and night, combine both in the morning feed).  
\*EQUINIME can be used two hours prior to any performance.  
Feed 2-4 scoops, depending on temperament. Two scoops is the average recommended amount. Because of the characteristics of the product, the amount can be increased, if necessary, for certain horses. If more information is needed, consult your Veterinarian.

## Easy Going™

Why not give your horse that comfortable feeling of peace, relaxation & contentment without dulling his senses, causing drowsiness or slowing

down reflexes in times of stress & anxiety.
