Your approach to fly control is about to change.

WHY ROTATE WORMERS?

Internal parasites build up a resistance to dewormers after repeated use. Therefore, it is recommended by veterinarians to rotate classes of wormers. Veterinarians recommend deworming horses every 60 days.

THREE CLASSES

CLASS I:

TETRAHYDROPYRIMIDINE-
Strongid, Strongid C, Strongid C 2X,
Equi Aid CW, Kaeco Pellets,
Pyrantel Pamoate

CLASS II:

BENZIMIDAZLES-
Panacur (Safeguard), Anthelcide EQ,
Panacur PowerPac

CLASS III:

IVERMECTINS-
Equimectrin, Eqvalan, Ivermectin,
EquiMax, Zimecterin Gold, Zimecterin,
Quest Plus & Quest Gel

EQUINE DEWORMING SUGGESTED ROTATION

Jan/Feb	CLASS II
March/April	CLASS III
May/June	CLASS I
July/Aug	CLASS II
Sept/Oct	CLASS III
Nov/Dec	CLASS I
